The following important reasons are why we should have an "Authorization Form" showing two individuals from each club who will be permitted to order supplies from the Conference Pathfinder Office:

- \* Better control of supply purchases.
- \* To protect each local club/church from individuals charging materials which are not authorized by the local club.
- \* To develop a better working relationship between the local club director and church treasurer.

It is necessary for this "Authorization Form" to be on file. There is a limit of two authorized signatures per form.
